DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Wampler (US 5,061,256). Wampler discloses an Intracardiac pump device for percutaneous insertion, with a pump (10) whose proximal end is connected to a catheter (14) and whose distal suction end is connected to a cannula (16) which, in the area away from the pump, has inlet openings (two openings 48 and circular opening of the cannula at the proximal end of the oblique opening 46), a flexible extension piece (distal part of 38 on that side of the circular opening of the cannula) being provided on the cannula in the area in the distal direction from the inlet openings(column 3, line 51 to column 4, line 9; column 4, lines 50-52; figures 1-2, 6).
